

KLOVE is a station that is enjoyed by ourselves as a station that plays music with an important message. We feel that a lot of our customers enjoy listening to it as their children will not hear offensive material that would be unsuitable. KLOVE has an excellent program which doesn't involve advertising & if it is able to support itself with it's customers it must be offering a service important to the public. It would be a great injustice to interfere with their signal & also be an action that doesn't allow people to listen to the music & commentary that they are wanting.
